

RE: Water Customers

The notification delivered June 23, 2025, is a **public education notice**, required per the State of Michigan under the Michigan's Lead and Copper Rule.

We apologize if its receipt caused alarm. The notification is meant to inform you about the potential health risks and encourage you to take steps to reduce exposure. When you have better information about the risk of lead exposure at your home and in your community, you can take precautions to protect yourself in your own home.

Please visit our website to view Forsyth Township water quality reports
